experience I felt motivated by others in the organization to serve the community in a greater capacity. I served in the La Rosa-Blanco as the safety and transportation coordinator my sophomore year. Because of this experience, I understand the immense and tireless work student government does every day and how it impacts students. I also had an opportunity to work with the UCF PD. With my prior experience, I know what the comptroller needs to do to best help out the coordinators and the rest of the cabinet. Also, I want to ensure what fiscal policy was unclear to the student body and the cabinet is clear to anyone who wants information. I want to make sure student dollars are used correctly around campus. My first initiative is: I want to develop important and meaningful relationships with departments and agencies by having monthly meetings and ensuring a constant flow of communication that the needs of the fiscal are met. I want to have biweekly meetings with fiscal committee chairs and potential have collaboration. I want to create fiscal training and workshops for SG agents, work with fiscal chairs and the pro tempore's offices to create training for presidents and treasurers of RSO's. I also want to conduct an executive branch training regarding purchasing rules during cabinetry work that covers in depth information about how to fill out a PRF, how to fill out an IUT, and go over regular use of funds. I want to restructure the PRF system and how it gets signed. I want to work with the communication division to inform the student body about the different parts of campus, the activity and service fee funds.

2. Questioning:

a. Aixala: If appointed, what will you most look forward to as a comptroller?

i. Answer: I would look forward to knowing the agency department heads and building more relationships. I can serve as someone who can bridge the gap between the departments and agencies that Activities and Service Fees fund and SG. I want to establish more open communication and be there for any questions or concerns they might have.

- b. Power: Why did you not want to once again serve as Safety and Transportation Coordinator?
 - i. Answer: I wanted to serve at a greater capacity and wanted to be the admin of the cabinet to make more change. With my major and previous experience I would be able to benefit the student body more with a larger leadership role.
 - c. Jacobs: Can you tell us something about yourself that is not on your resume?
 - i. Answer: I played soccer for 17 years and the relationships I have today are from the sport. I learned to collaborate more as a team and was on leadership roles on my team. I learned how to deal with different personalities and how to resolve conflict in high tension situations on the field and off the field. I bring those skills into my daily life today.
 - d. Mittan: The Comptroller serves as the CFO of SG, what past experiences will best help you in this role?
 - i. Answer: The position that is going to help me the most is the Safety and Transportation Coordinator because I had my own separate budget and had to perform budget presentations. I had to sit in hearings where different positions would argue money distribution. I also worked on big projects that required long contracts and had to work with Lyft which dealt with allocating money. That experience along with filling out PRF's and learning how to work with AS&F. There is still room for me to learn but I have a good understanding.
3. Debate:
- a. Kehoe: in favor + saw her serve position in Rosa-Blanco + plan details many different fiscal things I was not familiar with
 - b. Aixala: in favor + immense detail + goes into detail and knew her as a the coordinator

- iii. Joao Pedro Vartanian Silveira - Director of Student Affairs
 1. Speech: I am an international and transfer student. I am a double major in economics and communications and conflict. I have been able to adapt to different circumstances and cultures. This is my first time with the Student Government and I was a student who did not get involved. I became a student ambassador for the College of Business and I worked as the student engagement chair. I co-created initiatives such as mental health initiative with CAPS, had RSO panels with over 14 different RSOs, and worked with transfer students and created a bridge to the college of business to global. I have been involved with the student learning academic success console and worked with international students' mentors. My first plan involves Universal knights and change the ticketing process (website crashed) by dividing the number of days. With each day it can be either by the same percentage or a different percentage of tickets available. My goals with Light Up UCF is work on the process of giving out the ticket for the free day and I ask that you make it ahead of time to avoid long lines. I want to work with senators to gain different perspectives from each college and work everyone involved with the homelessness and hunger coalition with VP Wilson.
 2. Questioning:
 - a. Moscol: What initiative are you most excited about?
 - i. Answer: I want to work with senators and gain the perspective of students from their college. It is essential to understand their perspective and is going to help with the division of student affairs and the coordinators. It is important to understand how students in your college think to ensure they are not biased towards a specific college and help the overall student body.
 - b. Power: Given that part of your role involved being a liaison to Veterans Academic Resource Center, how will you make yourself accessible to a group of students that are not really represented in SG and have different problems when compared to other students?

- i. Answer: Working with VARC within the first month I am confirmed is to call with them and visit their office. I am familiar with their different resources such as mentors, scholarships, and career services. I want to have a conversation with the director and talk about the ceremony for the veteran students. I want to prioritize going there and talking to organizations and veteran students as well. It is important to understand their priorities and what they need from us. Also, being that person that they can go to if they need to support by being open.
- c. Yaari: How do you think living in all these different places prior to UCF will help you complete your job in your new position
 - i. Answer: I met many international students in Canada and I still maintain relationships with them. Having the multicultural perspective when dealing with diversity and inclusion and working with sustainability. Something else I learned was being able to open my mind to different initiatives and problems. I have the ability to be open, create new relationships, not be afraid of new challenges, and adaptability.
- d. Kehoe: While looking over your resume, it does not appear that you have any prior Student Government experience; what would you say will be your biggest challenge in adjusting to this role, especially with this role being one of a director?
 - i. Answer: It is true that I do not have prior experience with Student Government and am not familiar with other colleges. However, I plan on collaborating with senators to learn about different colleges to be aware of their problems and solutions for those students.
- e. Jacobs: I was looking at your initiatives and I saw your initiative about Universal Knights and how you want to divide the tickets within a 3-day period. I was wondering if you can go into a little more detail on how you would go about this?

of initiatives by our administration, VP/president's office, and student leaders. I want the space to honor the work that has already been done and give the chance of networking between student leaders, faculty staff and administration.

3. Debate:

4. Vote Count: 10-0-2
- v. Kylee Anzueto - Governmental Affairs Coordinator
 1. Speech: I am a junior and majoring in political science on the pre-law track with a minor in intelligence and national security and I have a certificate in leadership studies. I have been involved with legislative scholars, SGLC, working as a research assistant for the College of Sciences and the student conduct: academic integrity board. I have done research for UCF and won a scholarship for my women in government presentation. My off-campus experiences are I worked for the United States Senate, league of women voters of Florida, city of Orlando intergovernmental relations and for public supermarkets in governmental relations. I have experience/worked on/with local, state, federal, and corporation levels for governments. I want to get nonlegal studies involved by creating a platform where I cross examine linkedin, handshake and other platforms to include opportunities for political, governmental, and law internships while collaborating with career services. I want to work with RSO's to expose students to political RSO's by hosting events at the beginning of the semester to show students what the RSO's have to offer. I have been working with UCF PAD and their executive cabinet to potentially host a criminal justice reform where community leaders and legal professionals speak about what happens with juvenile justice. I have been working with Knight Pack with Ben (past deputy chief of staff) on educational programming surrounding the pro Israel movement. The last initiative I want to highlight is the day of orange county courthouse: tour of courthouse, court proceeding observation period, a Q&A with the defense attorney, prosecuting attorney, and a judge, and an end of the day reception with a community partner.

2. Questioning:

- a. Moscol: Looking at the job highlight initiative, do you have any proposals to increase legal internships for those not in the legal studies major?
 - i. Answer: That was a big problem that students are coming to me with and I am currently working with UCF PAD (on exec) by looking to expand to other majors. I want to work with career services to discuss with law firms to expand criteria such as majors. I plan to make it accessible to all students.
- b. Gonzalez: Can you elaborate on your initiative regarding bringing more Guest Speakers to campus and how you envision that initiative?
 - i. Answer: I was a part of the legislative scholars program and it was a networking experience through zoom. I worked/spoken with speakers already due to my experiences and jobs. I want to push for biweekly meetings because many of these speakers love talking to UCF students and come from different backgrounds. I want to include hybrid meeting options. For in person, I want to work with the Student Union and I plan on working with other cabinet members and senators. I want to cater with the student body by ensuring they see people they are interested in.
- c. Power: How will you ensure that any lobbying efforts towards the government are representative of the wants of the entire student body and not just a loud minority opinion?
 - i. Were you talking about Day at the Capitol or guest speakers that are lobbyists?
 1. Day at the Capitol
 - ii. Answer: I tried to reach out to political RSO's and I am looking at their needs and want because they cater towards different groups of students. I plan on bringing in different speakers that each RSO wants. I discussed with pro tempore Slaughter and we

discussed the lack of surveys by using QR codes. The results from the survey would go to a newsletter and they will go under legislative updates and highlight different issues students voted on.

- d. Jacobs: How would you describe your leadership style? Can you give us an example of you using your leadership style?
 - i. Answer: I am a driven individual and I am involved with leadership for most of the clubs I am involved with. I plan everything out and make sure I accomplish everything. I also want to ensure that I hold myself accountable. I would say time management and organization are two things I want to bring into this position.
- e. Gonzalez: How do you plan on ensuring great communication with the GAP Chair to execute a successful Day at the Capitol event?
 - i. Answer: It is the biggest event I have to host and I have already reached out to Galloway. I have set up a meeting with Janet Owens (VP of governmental relations) and I am trying to ensure that Galloway can attend the meeting so that dates are set in stone from the beginning and we can adapt. I plan on attending all of the meetings for GAP on Mondays.

3. Debate:

- a. Layman-Williams: in favor + worked with during the summer + always a great resource no matter what + best for the role
- b. Gonzalez: in favor + passionate + eager to see initiatives + perfect for the role
- c. Kehoe: In SGLC together, she was super supportive and involved, knowledgeable with all things related to the government! Looking at the proposal, I was amazed.

and want to serve the student body. I served as a knight thon chair for SGLC and raised over 1,500 dollars for the team. I was on ELC (executive leadership council) and served as chair of the Knightro Suits committee. On this committee, we created an interviewing panel with alumni and created events that focused on professionalism. I want students to understand the resources available from SG and become engaged again. The key to succeeding as an academic affairs coordinator is building relationships and connections with colleges and academic organizations that support students. I will be working with advising, career services, all 13 colleges, graduate student association, transfer knights, and various professional fraternities. As well as meeting with first generation students and students from downtown and rosen. I want to work on events that improve students' well-beings and I have provided a roadmap on how I plan to support all students. I want to create a meet the deans months and monday mental health break where students participate in fun and stress free activities. I want to work with other organizations such as STEP to bring their dogs.

2. Questioning:

- a. Kehoe: Which of your initiatives do you plan on implementing first and why?
 - i. Answer: I plan on building relationships and connections by reaching out organizations. I will achieve this by setting up initial meetings to see how the student government can help out and how we can get more student government involvement. I plan on doing this right when I start position
- b. Moscol: Do you have any initiatives catered to those planning on attending professional school (law, med, etc.) and the journey they go through, like entrance exams, etc
 - i. Answer: I want to support all students and reach out to the professional fraternities and help plan events for those students. Also, by creating initiatives that help those students prepare for those events.

4. Vote Count: 10-0-1
- vii. Allison Calvert - Marketing Coordinator
 1. Speech: I am a junior and majoring in communications and conflict with a minor focused on diplomacy. I am involved with the panhellenic executive board, PLC (president's leadership council), the order of Omega Greek Honor Society, and SG. We are students serving students and I have the goal of SG being brought down to students. I want to expand social media presence by highlighting different voices, show off diverse personalities by using tik tok and use stories. I also want to make social media more interactive by including drop boxes, questions, and live Q&A's. I want to make social media more representative of all the branches by working with the ELA, JELA (judicial external legislative assistant), and the assistant supervisors of elections to expand presence. I want to have bi weekly communication meeting so they have a voice in what the communications team is putting out.
 2. Questioning:
 - a. Moscol: How do you plan on reaching out to other branches and asking them to be on socials?
 - i. Answer: If it is an official post I will send an email, if it is formal to gain information about taking a picture potentially or interviewing them. If it is informal, put it through a text or reach out to the senate groupme or reach out to the different members in the branches.
 - b. Gonzalez: How do you envision collaboration with my role and how can I support you in this role?
 - i. Answer: One thing is being open and honest about your needs and providing what you need. I want to implement Senate Sunday's where it shows students

viii. Nicholas McCutcheon - Outreach Coordinator

1. Speech: I am an incoming junior involved with BHC and majoring in marketing with a minor in digital media. I am involved with marching knights, held leadership positions in LEAD, and currently a promotions director for campus activities board. I plan on reaching out to downtown and Rosen with innovative outreach methods. I want to host collaborative events with other RSO's on campus and other OSI agencies. I want to work with SBA to create detailed surveys to ensure we are getting good feedback from students and addressing their needs.
2. Questioning:
 - a. Kehoe: Do you anticipate your position as the Student Government Outreach Coordinator and your position within the Campus Activities Board to conflict with each other and how will you ensure that they don't conflict?
 - i. Answer: There would be no conflicts and contacting Rosen life, downtown student life, and meeting with RSO's. The Campus Activities Board is lenient with scheduling because I set the schedule of when I want to table and it has to work with my schedule. They are similar positions and I have to work with Rosen Life and Downtown Student Life for both positions. They

align with each other and make sure their needs and wants are taken care of and they work together.

- b. Power: You said you wanted to increase responses to surveys, how do you plan to do this? Additionally, you said you plan to make more detailed surveys, would you agree that the more detailed the survey, the less likely it is someone takes the time to respond?
 - i. Answer: I have a similar thought process and one strategy I have is tabling on campus on the patio of student union and memory mall. I want to give out promotional items and I want to give out promotional items to get students who complete the surveys. I foresee that possibly happening and working with SBA and not making them overly lengthy. I plan on trying to find that happy medium and want collaboration between legislative and executive.

Debate:

- c. Moscol: in favor + how you answered questions and previous experience makes you a great candidate

- ix. Jasmine Fletcher - Director of Communications
 - 1. Speech: I am a senior and majoring in secondary education with a track in English language arts with a minor in ESOL education. I served on the orientation team in 2019 and was an orientation lead for the 2020 team. I am also going into my third year as a resident assistant. I served on a regional board for housing organization and oversaw all of the advocacy and education relations within our region. I want to overall increase the transparency between the student body and student government. I want to provide more spaces for students to express their concerns and to speak in person or virtual. I want to get started with the student-employee coalition where students can express their different experiences while working at UCF. I want to partner with transfer knights and fye (first year experience) to implement SG informational sessions and provide incoming or transfer students with different services or if they are

looking to get involved with SG. I want to ensure that there is clear communication whether it is difficult or not; ensuring that students' voices are heard. I am very confident with my ability to be in this position.

2. Questioning:

a. Moscol: What experiences, if any, have prepared you to be a director?

i. Answer: The role that prepared me was the team lead for orientation where I supervised and hired the individuals. I had to provide support and mentorship to the team and addressed all of their needs. With this role, I know I will have to support my coordinators and provide any direction they may need.

b. Gonzalez: What other responsibilities will you have to fulfill and how do you plan on managing your time?

i. Answer: The main other obligation is the residential assistance but I have experience on being in this role. I know the time management concerning that role and other things I have to do besides academics. I am used to and well prepared for.
