- ⌚ Good evening Senate! Recently there have been a lot of chatter about AI, mainly from Chat GPT, and how this it is going to effect our insitution. There has been info-sessions to inform students on how it works, but with the rising concern, I would like to

get some clear cut rules for our students in our governing documents, instead of having such ambiguity on how AI can be used in our classrooms. If anyone knows AI well, I encourage you to hop on an initiative like this with me!

- ⊘ This week I joined a Task Force aimed at utilizing classroom spaces better than we currently do. It varies from college to college how classroom spaces are used, but if you have any idea from within your college or major or even complaint on how to better our spaces, please come speak to me so the task force and I can correct it.
- ⊘ Last week was the first of the month and I had no revisions to make to our governing documents. Our documents are long and lengthy, so if you find any errors please contact me!
- ⊘ This upcoming Monday is the 22nd anniversary of 9/11. The Military and Veterans Success Center is hosting a memorial at 8AM that day in front of the flags on memory mall. I strongly encourage Senate to attend.
