1. NAME is pheobe, president, we are a trumpet club and sometimes we have guests come out in which they speak and also play for us. Our students also play with them on some occasions. The guests are usually from the United States. The guests come in for a masterclass and we have a recital with them as well. A great opportunity for us to learn more about the trumpet and music education. I learn a lot of different techniques that these artists use and walk away with a lot of different information. Without SGA funding, we probably wouldnt be able to do them. They usually fly in from wherever they stay. We will have Terry Everson come in from Boston. He is a freelance trumpet player. His resume is really thorough and has played with many different groups.

  - i. Speech
    1. Help Students with their personal finance journey as much as people, with whatever that may be such as long term investing, day trading, etc. We offer two main paths they can branch off of; Long term investing and Short term investing. We see great development in our members from the content in these books. We offer these resources for our members because they are new investors, to act as a platform and foundation for them. That's the goal for the books, providing them concrete information that will dive deeper into the important information rather than the workshops we already provided.
    - 2.
  - ii. Questioning
    1. Chair: Are they for all UCF members
      - a. RSO: They are for our members, or all UCF members that come to the meeting
    2. Chair: Will they be used at tabling
      - a. RSO: No, we typically table at the beginning of the year.
    3. Whitson (directed at chair): Do you think we could look into the precedent from last year of put it into an event category?
      - a. Chair: If they can turn their meeting into an event, we could make that work but the current category of promotional items would not work
    4. Chair: That would be a lot to change in the committee right, is it possible that you could create an event and resubmit the allocation?
      - a. RSO: Yes, but can we expedite the process?
