- vii. Email to Speakers
  - 1. “The goal of this seminar would be to bring in qualified and educated speakers on Trans Wellness and Health, with a focus on the medical field and procedures. We are looking for speakers, including researchers and medical professionals, to come to UCF and discuss their experiences with the transgender community. We’d like for them to describe the procedures that exist for trans individuals, as well as the mental and physical health aspects of being transgender.
  - 2. The idea for this event stemmed from the fact that gender reassignment surgery has such an astronomically high satisfaction rate (more than 90%!) and hardly anyone talks about it, especially in comparison to other cosmetic surgeries or procedures (such as getting a tattoo). With everything that is happening in the country, and in Florida in particular, I feel it is very important to focus on something positive coming out of it that can also be educational. This event aligns with a piece of legislation passed in Senate in November that recognizes January as Mental Wellness Month.
  - 3. **We’re planning for this event to be on Thursday, January 25<sup>th</sup> at 4pm in the Student Union. If you’d like to attend the event and speak, please let us know by the end of next week.** If you have any resources/contacts that you know of that would be in line with
