      - d. [Supporting Documents](#)
    - 2. Speech
      - a. Rose: RSO is present. They have resubmitted in the new VPF format. I have gone through everything and verified that each line item does correspond to the pages provided. The largest individual item is the Meritt precision molds. These were a donation, so the number is calculated based on the rate provided in the email, as well as the area of the molds. There are images of the molds on the last page of the invoices document so we can more or less verify the provided area measurements. In addition, at the bottom of the spreadsheet there are pictures of the finished product (which we also saw in one of the senate meetings).
      - b. Suzannah (RSO Rep): I removed some things that were on the original submission that you all had issues with because I couldn't find any other documentation. I did also find new receipts that weren't on the original one, so I included those as well.
    - 3. Discussion
      - a. Varela: I would say that it's obviously too long for us to go through fully but from what I've seen I am confident they spent what they said they spent
      - b. Rose: With the 13k for the mold. It looks like they have a mold and the picture seems to line up with the dimensions they gave us. We have the pricing per measurements from the manufacturer.
    - 4. Vote
      - a. Approved 3-0-0
