5. Announcements from the Chair Courts-
 - i. Hey guys!! Unfortunately, the cards and universe are telling me that today's meeting is going to be pretty long, but I think that if we all stay on topic, we can get through it.
 - ii. We are seeing 5 bills, 13 absences, a blanket excuse, and splitting up the title three bills so that they can be submitted to the pro temp's office. We also really need to talk about title ix today, so we are booked and busy.
 - iii. In other news, I am very proud of all of you in regards to the censure process last week. We really were going off of nothing, and we all did great. Love my committee for real for real.

- i. I'll keep it quick. Just wanted to say that y'all are the best by always being diligent and reading before the committee meeting and being generally on top of things. A big HELLO and WELCOME to our new addition to the committee, and BIG NEWS from me personally!
7. Announcements from Committee Members-
 - i. LJR (GAP) Rep: Hi guys! Last week, we continued discussing our DATC research and writing legislative briefs. I'm done with mine, granted I only had 2 but still whoop, whoop! We also discussed updates to statutes affecting GAP, such as amendments that would ensure the Chair and Vice-Chair are guaranteed a DATC seat, and that the Chair gets to advise on the selection process for agents/students going to the event. That's all from me.
 - ii. LJR (E&A) Rep: Title VI updates, didn't see any confirmations. We discussed the special election bill.
 - iii. LJR (SBA) Rep: SBA looked further into updating the Senate Rules to clarify what SBA does so that it's codified in stone for future Chairs, not much news beyond that.

 - (a) We are very familiar with this bill, it had to be pushed back due to the censure. As you can see, I made some additional amendments just so that it does not encroach on the current duties of the Justices. As it stands, it says that no Justice of the Judicial Council may provide advice on matters related to the Student Government Constitution or Statutes outside of official Judicial proceedings or

meetings. In addition, just as they are prohibited from serving as advisors in front of the Judicial Council. The other amendments for judicial council are for simplicity. In addition, it says that justices have a working understanding of the overarching documents and must complete annual training by the Chief Justice guided by the Student Government Advisor. As stated previously, we had several members of the Senate body with concerns involving the previous Judicial Review with regards to an internal bill and the part the Chief Justice played into that. The question was if they served as an advisor in place of the Judicial Advisor, and interpretations made which falls under the Attorney General. The Judicial Council gets final say, and so if they are interpreting as individuals without going through a hearing, then the Judicial Council becomes less of a Council and more as another 14 Attorney Generals. In addition, many Justices had trouble naming parts of the Election Statutes during questions earlier in the semester, which is very concerning coming from the individuals who are supposed to be interpreting these documents. If they aren't required to have that working understanding, then how can we hold them accountable? Senators must be familiar with these documents, I believe that this is a fair standard to enforce upon the Council and provide a better division between the roles of the Judicial Council and the Attorney General.

- ii. Questioning
 - (a) Benwick: MTD
- iii. Debate
 - (a) Benwick: I will be voting in favor, as I believe that it is very important that these agents be familiar with the documents they are working with. The Judicial Branch not being required to know these documents is questionable, and ought to be enforced.

 - i. Speech
 - i. This makes several changes to how caucus appointments will be made as they are being kept outside of Title III. The first one being the Chair can remove any member of their caucus, and the Vice President now appoints members of Student Government Agencies to caucuses. The Election Commissioners will also be able to resign themselves, but must still submit their resignations to the Supervisor of Elections. This also makes all Student Government agents include people working in OSI, rather than just people working in the office or leadership. It also makes caucus meetings in line with Title XII rather than Sunshine Law.
 - ii. Questioning
 - i. Trejo-Hernandez: MTD
 - iii. Debate
 - i. Collazo: I wrote this bill with the Pro Tempore to help expand who can be a member of a caucus. In my discussions with the OSI Director, he stated that caucuses were originally created for the purpose of advocacy and to connect to the student body. I think it is only fair that our Agencies are able to sit on these, especially members of the Multicultural Center. Currently, only the student

directors of the agencies are considered members of the agencies, which I do not believe is fair and hope that this will encompass more people. Hopefully this will also allow us to have an outreach project with these agencies through expanding that definition to allow more people to sit on these caucuses because it is a disservice to not have a true connection with them beyond the A&SF board, which is a tangential connection at best. I think this will also be seen favorably with Dr. Frame as she has also been suggesting that while programming is good, too much can be bad, and that we should be doing programming in collaboration with the agencies we already have present.

- ii. Courts: When we talk about Student Government Agencies, who are we referring to?
- iii. Morissette: The executive board would be able to sit on a caucus.
- iv. Collazo: A discussion will need to be had with them to lay down who would qualify as being under that agency due to their extent.
- v. Morissette: I think MSC would be the only issue, as they work in tandem with the RSOs but have a very distinct executive board.
- vi. Courts: I yield the chair, motion to see my amendment.

- i. This bill is pretty simple, it is a change to how caucus ex-officio seats work. It will remove the limit on them to streamline the election process, as a caucus chair I realize that the allotted seats was not enough to cover the student groups that our caucus serves, as my caucus represents transfer students, Downtown students, Rosen students, and Lake Nona students. Three seats is not enough to represent all of these students, especially the subgroups within all of these campuses. I am unsure if other caucuses have this same issue, but I do not think we should be arbitrarily limiting the number of ex-officio seats that may be present on a caucus. I also wanted to get rid of the rotating door of ex-officio seats, as I find it quite difficult to manage and fairly pointless.
- ii. Questioning
 - i. Courts: For 1401.3.E, it says the number of ex-officio seats shall not exceed the number of Student Government Agents on the caucus, but it also says the Caucus Leadership Committee may expand the number of seats by a majority vote. What do you mean the Committee can expand the number?
 - ii. Varela: Let's say the Arab Caucus has only 3 members and wants a fourth ex-officio seat. They would be able to go to the Caucus Leadership Committee to expand their number of seats to 4.
 - iii. Jolicoeur: MTD
- iii. Debate
 - i. Collazo: I will be voting in favor as I was reviewing this bill and revising it with Chair Varela. I believe that this bill is good and that the only note I would like to make is I am the one who put in the Caucus Leadership Committee may expand the number of seats, as I shared with Chair Varela that I don't believe it is fair that if a caucus only has one or two Student Government agents and wants to have more seats, I don't think they should be admitted unilaterally based off of my caucus experience
 - ii. Benwick: I think this is a really good bill, I am not in any caucuses so I see this from an outside perspective where caucuses have definitely been treated as a red-headed stepchild by being outside of Senate. This would help to make them the blonde-headed stepchild and expand engagement.

- iii. Trejo-Hernandez: As a member of a caucus that is very small, I agree mostly because the caucus can be so generalized so having more seats lets you gather more perspectives.
- iv. Courts: Motion to see my amendment
 - i. Speech
 - 1. Courts: I just added that the number of ex-officio seats may not exceed the number of Student Government agents unless otherwise stipulated to prevent the self-contradiction in the bill.

 - ii. Questioning
 - 1. Jolicoeur: How long did seats last?

3. [Internal Bill 56-35](#) [Updates to Title XIV: The Student Government Caucuses]
[Chair Varela]

i. Speech

i. Varela: This is a bill that would make the ICTC a permanent caucus. Currently is an ad hoc caucus which will expire at the end of the year. I believe it is necessary we continue our work due to serving as a forum for advocating for Lake Nona, Downtown, Rosen, and transfer students, which is a very wide body. I have already seen a change where we are now discussing expanding initiatives to other campuses, so the presence of mind that we are advocating for these other caucuses has been good. There has also been much more outreach for transfer students since becoming a caucus and drastically increasing the number of events aimed at these students, a very important demographic due to how much of the student body they compose. We also serve a very important role in the renovations of the Rosen campus as we serve as the voice of students and ensure that concerns such as dining are heard. We have also been collaborating with the executive branch to oversee the transition of the nursing program from the Connect campuses to the Lake Nona campus. This is a multi-year endeavor, so for the caucus to be dissolved would be a major harm to these efforts. We have also been working hard with the registrar's office to have more transparency with transfer students as to why they were denied. This is just a small amount of what we have addressed, and there are many more issues with which we as a caucus must continue to address.

ii. Questioning

i. Benwick: MTD

iii. Debate

i. Jolicoeur: As a transfer student myself starting last semester, before I was aware of the existence of this caucus, coming into Student Government was one of the issues that I wanted to pursue. Upon discovering this caucus already existed, I became very excited to work with this caucus and will absolutely be voting in favor, as I was very surprised this caucus did not exist prior and would love to see this caucus continue to exist.

- ii. Gaudio: I have seen the work that Chair Varela has done and I think that expanding the caucuses beyond just ethnic groups and into demographics such as a transfer students is a noble endeavor that frankly is what we are all here for and allowing these students to have that representation finally especially when it's so hard for these groups to come together by their nature as new students who do not really know the ins and outs of the university, that there's no reason not to allow this to continue to exist into the foreseeable future.

i. Speech

- i. As many of you know, on February 15th, I was in a car accident that resulted in me cracking 3 ribs. Being hard-headed, I did not want a scan on my head (partially out of fear of what would be found), but after more time, it became apparent that I had a concussion. I am seeing a doctor on either Wednesday or Friday to confirm my suspicions. Although I don't have proof yet that I have a concussion, my symptoms of extreme tiredness, mind fog, headaches, and disorientation made it impossible for me to attend Senate on Thursday. I have been diagnosed with epilepsy since the summer of 2018 (if you would like that documentation, I can find it) and, as a result, take 1000mg of Keppra 2xs a day. This diagnosis requires me to listen to my head, and I did not feel comfortable attending Senate in my current state on Thursday and ultimately fell asleep at 6pm and did not wake up until 6am. I have attached my call log showing my call to 911 on February 15th. Additionally, on February 21st I left for Atlanta to attend Regionals for Mock Trial. This was an extracurricular activity that had been pre-planned.

- i. Jolicoeur: MTD, absence is approved

iii. Debate

- i. Benwick: I will be voting in favor not because of everything ELA Richmond provided (but also because of everything), while I don't encourage everyone to not show up and take that excuse, ELA Richmond still showed up to last week's LJR committee meeting despite all this. This is a testament to her character and why we should all be in favor.
- ii. Collazo: I am really confused, because she went to attend a regionals despite all this but didn't want to attend Senate. I deeply sympathize having been in a car accident before, but to then say that they went to a regional conference but can't go to Senate is a bit odd. If the priority is health, then I am not sure why the Senator went to the conference rather than prioritizing their personal health. That is my only concern, I was into the story until that last bit.

I will take them at their word and believe that is reason enough to excuse this absence. fair bit of the meeting, his presence in committee, the caucuses he's in and everything else he does outside of those meetings will still ensure that he's having that voice and being a contributing member.

ii. Collazo: MTV

iv. Vote

i. 4-1-1

11. Miscellaneous Business-

i. None

12. Member Discussion- MTIF: **Approved by GC**

i. Statutes and Rules

1. [Prospective Title III](#)

2. Title IX

i. Non-Compliances:

ii. Statute doesn't illustrate how a committee can adopt a non-compliance

iii. The powers of the LJR committee in extent of penal actions are not clarified(example, can LJR remove election commissioners or can only E&A as under Title VI?)

iv. Rewrite penal action section entirely to make it more clear that penal actions do NOT have to follow tier system

v. Censures:

vi. It is never stated WHEN in the Senate meeting a censure will be heard beyond Miscellaneous Business. Should be the first thing heard in a meeting after announcements, LJR should get an announcement separate from committee announcements pertaining specifically to the censure at the beginning of the Senate meeting so attempts to overrule an LJR denial can be seen at the beginning of the meeting rather than all the way in Internal Committee reports.

vii. Timelines and what is considered germane for speeches and questioning for both LJR and on the floor are unclear

viii. Nothing is laid out in the statutes concerning submission of evidence. As it stands, the Chair can admit new evidence which was not seen in the LJR Committee, and it is never stated when evidence must be submitted to LJR either.

ix. There is no procedure for recommending a penal action.
