- i. I hope that last Thursday's meeting was not terrible for you all, I unfortunately was not there, as you know. This week we have two fiscal Bills to see, both for the same event but for different RSOs. There are two RSOs coming in requesting funding for Rocket engineering.
 - b. ORS Rep:
 - i. None
- 8. Announcements from Non-Committee Members:
 - a.
- 9. Old Business:
 - a. Allocations-
 - i. [54-40](#)
 - ii. Speech: Promotional item allocation. We have been postponing this for the last two weeks. This RSO has already purchased the items
 - iii. Questions:
 - iv. Nimbargi: Did they not want the sg funding prior to buying the items? Apparently not.
 - v. Debate:
 - vi. McClellan: Really unfortunate. This was an instance of miscommunication.
 - vii. Vote: 0-7-0. Does not pass
 - b. Bills- None
 - c. Resolutions- None
- 10. New Business:
 - a. Allocations-
 - i. [54-49](#)
 - ii. Speech: AFROTC. We are having a leadership seminar for our organization. We are expecting 129 cadets to attend and we need to account for their equipment fees. This event is going to be occurring over a two day period.
 - 1. Continued: I contacted two of my cadet colleagues. I explained the funding process. We will be willing to advertise

this to all UCF students. We will make flyers and post this on social media.

iii. Questions:

1. Wangen: Is this open to UCF students who are not cadets? No, it is only available for cadets.
2. Millington: Is it possible to open this event to all UCF students willing and able to go? It may be possible to open the event. It could be possible on an RSVP list.
3. Millington: What is the likelihood you would have other UCF students? We would like to have the cadets only for this event
4. Barekman: Do you believe you could also involve other military RSO groups? It may be possible.

iv. Debate:

1. McClellan: If they were to change it to a CRT allocation, it would no longer be an event, and we would not be able to fund the equipment. Is it possible to table this for now?
 2. Heintskill: I will be voting in favor. This seems like a great event.
 3. Barekman: When I was in the army, we did live exercises using paintballs. It is a better way to train. Thus, I speak highly in favor.
 4. McClellan: I am voting in favor
- v. Vote: Allocation Tabled. Then voted on - 5-1-1. Allocation passes favorably.
- vi. [54-50](#)
- vii. Speech: The KnightConnect submission had 0 documentation submitted with it. There was no reply to the email from the RSO. So this is something we cannot see. We would normally postpone but we will not be able to see this next week. I reached out a second email requesting. Therefore I recommend PPI.

viii. Questions:

- a. McClellan: Do you want to PPI it or do you want to reject it? We should PPI be

ix. Vote: PPI

x. [54-51](#)

- xi. Speech: They were missing documentation in their KnightConnect submission. I sent them a courtesy email telling them we will not see their request. Thus, I recommend postponing this one as well until we receive further documentation.

xii. Vote: PP to next meeting by GC

xiii. [54-52](#)

- xiv. Speech: The Knight Connect submission had no supporting documentation. I received a submission from them this morning and I am postponing them until further notice. They will see us in the November 1st meeting.

xv. Vote: PP to next meeting by GC

xvi. [54-53](#)

- xvii. Speech: We are the Institute of Transportation Engineers. We feel this event will help us to become more active. This would help us engage more with our members and help attract new members. We want to work with other RSOs. We took the initiative and wanted to make this a social event.

xviii. Questions:

1. Wangen:
2. McClellan: How did you come up with an estimated attendance of 60 members? We are mixing it based on the other RSO joining us as well.
3. McClellan: How are you advertising this? We are posting this on KnightConnect, have flyers around campus, and have our department advertise it.
4. Millington: Clarification question on requested funding.

5. McClellan: Are you guys going to be having your games as well? Yes, we receive additional funds from the state level organization.
6. Wangen: How does this event fulfill your RSOs purpose? We hope this will build stronger relationships with our members and this is a way for people to hear about our RSO

xix. Debate:

1. Parmar: I like this allocation. They want to spread out their RSOs.
2. Wangen: I like the event itself. I am only apprehensive because this may be qualified as a banquet. Which makes us uncertain about funding this, based on policy.
 - a. McClellan: I am going to be speaking in favor, because this event will have more than just food.

xx. Vote: 6-0-1. Approved.

b. Bills-

- i. [54-23](#)
- ii. Speech: We are requesting funding for a hybrid engine. The total cost is 10,000 and we are requesting 5,000. We are a rocketry focused club. We focus on preparing students for the professional industry. We have rocket and software workshops. We are developing a hybrid engine. These rockets made in the past are all student built. We want the hybrid engine to be capable of testing in a hypergravity environment. This conference will have 35 participants. We will match the contribution by doing outreach and funding events. We will also be looking toward acquiring private projects.
- iii. Questions:
 1. Wangen: What is the name of the conference? The Intercollegiate Rocketry competition - SpacePort America Cup 2023.

2. Parmar: Do you also have a CRT bill for the conference?

Yes

3. Millington: What are you most excited for, for this project?

The supportive environment is great. My favorite part is giving students a platform to challenge themselves with something difficult and what they originally thought was impossible.

4. Parmar: Which competition are you going for? We are going for the 10,000 Rocket challenge

iv. Debate:

1. Barekman: Rockets are great. This is what UCF was founded upon. Assisting the Kennedy Space Center.

Motion to make amendments voted as technicals.

v. Vote: 7-0-0. Passes favorably.

vi. [54-24](#)

vii. Speech: Students for the Exploration and Development of Space.

We have events with technical projects as well as having speakers come in. We have participated in this event before. This year, we are building a new rocket. We anticipate the total cost is over 4000. SEDS is providing half of the total cost. We are requesting SG to provide the other half of the funding. We are really excited for this opportunity for students to build technical skills with rocketry and integration.

viii. Question:

1. Parmar: Does your RSO have two financially trained officers? Yes.

2. Parmar: Are you aware of the 80% funding policy? Yes, we are aware.

3. Millington: What are you guys most excited for this event? The opportunity to learn more and to see how rocketry is integrated into a full-scale system. It has been a great deal

of time since UCF has been integrated into the rocket community.

4. Parmar: How many members do you on each team have building this rocket? Eight members are on each team.
5. Heintskill: What type of rocket? This project is going to be the structural component of the rocket. This is integrated into multiple systems.

ix. Debate:

1. Nimbargi: This seems like a great event. It will help develop the passions of students.
2. Heintskill: This will be great for the RSO. I am in full support.
3. Wangen: I am in favor. Especially with two RSOs working together.

Move to vote on the amendments as technicals.

x. Vote: 6-0-0. Passes favorably
