2. McClellan: Where? Tabling events and club meetings.

xiii. Debate:

1. Parmar: As they are promotional items, you will have to give them out to tabling events, and make sure you are advertising this to the UCF student body.
2. Barekman: This will be niche enough that the only types of members
3. Parmar: Don't we risk that everytime. Members always have an unfair advantage when they know when the tabling events.
4. Barekman: There are many ways for the RSO to engage in the UCF body with promotional items. I do not believe this particular item will connect people with their club.
5. Nimbargi: What Parmar and Barekman said about the items are true and it would be wiser to change the items necessary for promotional items.
6. McClellan: They would most likely go fast to your RSO members only. Most students do not have the use for this.
7. Millington: We are all the pages that we believe you would hand them out at tabling events. If it is an item most students would find cool it would better promote the club.
8. Parmar: For promotional items you can get stickers and other small promotional items. Based on the current debate, I would not approve this current allocation.
9. Barekman: Even stickers that would have FPV would be great. This would mean the current allocation would not suffice to properly promote the club.
