We have constructed an [Excel sheet](#) listing sponsors, their contact information, and progress updates that I can share with you if you would be interested in having said document. In summary, we have sent emails out to all but 2 of the sponsors (of which one is a personal contact that will be talked to directly), and only one of them has responded as of today providing proof of purchase (Red Bull Racing, if you were curious). We will likely resort to making calls to any numbers we can find to expedite the process, hopefully this was insightful and helped provide clarification on our current situation. Thank you for your continued patience and understanding on this matter, talk to you soon!"
 - ii. Our first submission was similar to what we did last year. The last treasurer left me the vpf to do. I was left

with receipts and a ledger of sponsors for chair makoroff. Over the past month we have been emailing trying to get receipts from the companies. We want to have real data to show you all that we have been spending the money as we say. Merit Precision was the one that we had problems with. WE will be doing a sponsorship with them this coming year. We are asking for leniency in this situation because we were not treated this way in the past and need to adjust to the new requirements. WE have receipts and invoices.

3. Questions:

- a. Senator Wangen: Do we have the documents that he is talking about?
 - i. Yes
- b. Chair temple: Was not able to go to the past meeting but went to others to confirm what was going on and see the process.
- c. VC Robbins: (to RSO): You said Merit Precision was the one sponsorship that you didn't get?
 - i. Yes. We were unable to match them this year but we will get them next.
- d. So you didn't put them (Merit precision) in for this year?
 - i. We will next year, there was no need for the prior year.
- e. Wangen: The Daytona line has a different number and no correspondence?
 - i. There is a line that proves correspondence with Daytona.

4. Debate:

- a. Senator Wangen : the numbers match up correctly.
- b. Senator Robbins: thank you for being honest and the numbers match up
- c. Senator Guel: Lets approve it

- a. Chair: A reminder for the committee Baja is under Fiscal Probation for submitting their VPF late. This process began back in July, but wanted to see their VPF before we pursued the post funding review proper, which was a procedure we maintained over the summer. So if it seems weird we're only now seeing Baja for a review, it was a discretionary decision.
 - b. RSO Rep:
 - i. Current captain, last years group was not aware of the VPF. Just found out about the VPF process. Previous officer group did not read the bill or let us know what was going on so did not know until too late what the requirements for the bill to be correctly brought to completion.
2. Questions
 - a. Senator Guel: What is BAJA international?
 - i. We compete and build cars from scratch
 - b. Senator Wangen: Have we sanctioned an RSO for being late with a VPF?
 - i. No
 3. Debate:
 - a. Senator Wangen: The rep or the ORS chair should have contacted them
 - b. Vice Chair Robbins: We have set a subliminal precedent that being late is not sanction worthy.
 4. Vote to Not Sanction:

relationship with past mentor because there was no clear answer on things.

b. Question

- i. Senator Guel: Could you explain in what ways things will be done differently?
 1. RSO: Our new treasurer is alejandro, beforehand there was an excel spreadsheet that was used to streamline things, but there is nothing else anymore.
- ii. Senator Guel: Were either of you a part of the executive board when this went down?
 1. RSO: We do not know who they were during that time and no we were not there
 2. Have either of you gone through this SG funding process?
 3. RSO: it was considered acceptable beforehand
- iii. Pro temp foster: You mentioned the last treasurer, but why was no one here contacted?
 1. We did, talked to chair dench and in contact with
- iv. Senator Borges: Was the past acceptance of the way you submitted docs hurtful to your understanding now?
 1. yes , it was misleading and more difficult to understand after those things being accepted
- v. Senator Wangen: How losing 10,000 affected this much?
 1. RSO: Merit Procision had a long standing relationship with us and historically they have made us a mold in the spring. We did not have anything to range with in regards to them giving a receipt. In past years what they have offered us has been around 16,000.

- 2. RSO: They were not incontact with us soon enough
 - 3. They were in contact in february about a previously used car. We received the molds just not in time for the VPF.
 - vi. Vice Chair Robbins: So you received what you needed from Merit Precision, not in time for the VPF though?
 - 1. Yes
 - c. Debate
 - i. Vice Robbins:
 - 1. I appreciate the details you have provided, and it is difficult to remember what happened back in Feb. In my opinion, the current representatives are great, and what they are saying is accurate and wholeheart, but the rest of the situation does not warrant as much confidence. There's no way to make other people work themselves out. They came back to us to discuss this, and it wouldn't seem to be the case for the others. I don't want to sanction, but we need to do so on the merits of advising the E-Board to establish a better process.
 - ii. Senator Guel: Are either of you on the board this year? I personally dont want to sanction them, nothing more than 10%, I am glad they are on the E-Board. I think the standard with the past session is out of the control of them, we can only set precedent for the future. They are workable and respectful.
 - iii. Pro-temp foster: I agree with the vice chair and guel, adds up with the VPF. If you all want funding in the future i think that this would be good.
 - iv. Senator Borges: I agree, and want to add that former Chair Malikoff seemingly did anything she could to
