- v. [54-087](#) (Parag Vyas)
 - 1. Speech
 - a. Parag is presenting a case report related to geriatric subspecialties that deal with taking care of the complex situation that involves cancer in an airway. He completed this research with UCF faculty, and therefore he's representing the College of Medicine, UCF Faculty, and UCF as a whole.

In addition to the research, he's the Vice President of a geriatric club and says this conference is a great opportunity to connect with doctors in the field and get the club more involved. He explained that the club has doctors and medical staff come in to present and give information on residencies, medicine, and their futures - so, this conference is a huge networking opportunity and opens the door for mentorships for many students in this area within the College of Medicine.

Going to this conference satisfies one of his goals as Vice President, which is getting more contacts, so he will be participating in the networking on the second day of the conference, and will be going the night before because the conference starts at 7 AM and is a few hours drive from here.

I explained to him the post-funding process, explained the need for completing the new financial training by today, and

- c. Wangen- I would agree that it isn't a tax but I would leave it as well
- d. Hurrell: MTA lodging cost approved by GC
