        - d. [RSO Actual Contribution](#)
      2. Speech
        - a. RSO rep: we included software donations, travel, and
      3. Discussion
        - a. Questions to ask (anyone):
          - i. Why did you list hotel and registration costs when the bill was to build and manufacture the vehicle?
          - ii. Do you have any documentation for costs other than the software that went towards building the car?
          - iii. Is the software not already free for students – what is different about these licenses?
        - b. Varela:
        - c. Hameed: Did you pay for the software?
          - i. RSO rep: Ansys gives us the money and we spend it immediately with them, so it's a transaction of sorts
        - d. Rose:
        - e. RSO rep:
          - i. I think gas costs / travel / hotel should be counted because the ultimate goal was to go to this competition.
          - ii. Hameed: The way I see it is that FAO bills are only for building the project, CRT are only for travel
        - f. Rose: the question is do we count it towards their contribution

# LEGISLATIVE BRANCH

UCF Student Government  
ORS Committee Meeting  
09/05/2025  
2:00 PM

- g. Varela: is there precedent?
  - i. Rose: i believe statutes says we can only count what SG can fund
- h. Rose:
- i. Varela: is software contract renewed each year?
  - i. No official contract, we just have a contact at the company
- j. Varela; do you expect each year to get this donation
  - i. We do but it could change
- k. Varela: could you build the car without the software
  - i. Not really
- l. Rose: Can you not get this software for free as students? Or is this specific software a special thing?
  - i. RSO rep: It is its own special thing that allows us to build the car, not free normally
- m. Varela: is it possible to get a cost breakdown for the car minus the software?
  - i. Jones: Suggestion to the RSO, maybe look at previous years' costs?
- n. RSO: Is it possible to get a decision on software being counted?
  - i. Rose: thoughts guys? We did accept it last year after some debate
  - ii. Varela: I was the one who was against it last year. If they are receiving the software donation every year it feels wrong to include it.
  - iii. Hameed: I agree with Chair Varela, I also feel iffy about counting it because no money was spent
  - iv. Rose: Just noting that ORS does accept donations towards RSO contribution.
  - v. Varela: Would definitely be in favor of accepting physical car part donations, but this is software.
  - vi. RSO: without this software, building the actual car would not really be possible. The analysis with the software is key to making decisions on the car.

  2. Speech
    - a. Email from RSO: *"The 9th person was someone who said they were coming but never actually signed up, that's why it originally said 9. Additionally, all registration costs were about \$1650. Any reduction of that cost was due to internal MEDLife HQ fee deductions that were done by an individual, not as a club, and I was unaware of anyone who had those fee deductions."*
    - b. Rose: I asked them to clarify the math in their spreadsheet but haven't heard back on that point.
